(Zip Code)

Registrant's Telephone Number, Including Area Code: (609) 642-6670

Not Applicable
(Former Name or Former Address, if Changed Since Last Report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, \$0.00001 par value per share	PMVP	The Nasdaq Global Select Market

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§ 230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§ 240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 7.01 Regulation FD Disclosure.

On October 11, 2023, PMV Pharmaceuticals, Inc. (the “Company”) issued a press release announcing that it will present updated Phase 1 data from the ongoing Phase 1/2 PYNNAACLE study of its lead product candidate, PC14586, in a late-breaking poster session at the 2023 AACR-NCI-EORTC International Conference on Molecular Targets and Cancer Therapeutics on October 12, 2023. The poster will contain updated Phase 1 data from the study as of a September 5, 2023 cutoff date. Today’s press release also announced the publication of an abstract containing Phase 1 data from the study with a May 1, 2023 cutoff date.

A copy of the press release is attached as Exhibits 99.1 to this Current Report on Form 8-K.

The information in this Item 7.01 of this Current Report on Form 8-K, including the attached Exhibit 99.1, is intended to be furnished and shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing, whether made before or after the date hereof, regardless of any general incorporation language in such a filing.

The press release attached as Exhibit 99.1 to this Current Report on Form 8-K include “safe harbor” language pursuant to the Private Securities Litigation Reform Act of 1995, as amended, indicating that certain statements contained therein are “forward-looking” rather than historical.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits:

<u>Exhibit Number</u>	<u>Description</u>
99.1	Press Release issued by PMV Pharmaceuticals, Inc., dated October 11, 2023.

**PMV Pharmaceuticals to Present Updated Phase 1 Data on
PC14586 at the 2023 AACR-NCI-EORTC International Conference
on Molecular Targets and Cancer Therapeutics and Host a KOL Webinar**

PRINCETON, N.J., October 11, 2023 (GLOBE NEWSWIRE) — PMV Pharmaceuticals, Inc. (Nasdaq: PMVP), a precision oncology company pioneering the discovery and development of small molecule, tumor-agnostic therapies targeting p53, today announced that it will present updated Phase 1 data from the ongoing Phase 1/2 PYNNAACLE study of PC14586 in a late-breaking poster session at the 2023 AACR-NCI-EORTC International Conference on Molecular Targets and Cancer Therapeutics, taking place October 11-15, 2023, in Boston, Massachusetts. The poster will contain updated clinical data from the study as of September 5, 2023.

The abstract, containing data with a May 1, 2023 cutoff, was published today and is available for conference registrants on the AACR-NCI-EORTC 2023 Conference app.

Poster presentation details:

Title: Updated Phase 1 results from the PYNNAACLE Phase 1/2 study of PC14586, a selective p53 reactivator, in patients with advanced solid tumors harboring a TP53 Y220C mutation

Session Date and Time: 12:30 PM – 4:00 PM ET on Thursday, October 12, 2023

Session Title: Poster Session A

Lead Author: Alison M. Schram, M.D., Memorial Sloan Kettering Cancer Center

Abstract Number: LB_A25

Additional PC14586 Presentations at AACR-NCI-EORTC Conference

The updated PYNNAACLE clinical trial data will also be discussed by **Leila Alland, M.D., Chief Medical Officer of PMV Pharma**, during the Chemistry in Cancer Research Town Hall at 6:00 PM ET on Friday, October 13, 2023, and by **Aparna Parikh, M.D, M.S., Director of the Global Cancer Care Program at Mass General Hospital Cancer Center**, as part of Concurrent Session 8: Targeted and Immunotherapy Approaches Against p53 at 10:00 AM ET on Saturday, October 14, 2023.

KOL Webinar

PMV will host a **KOL webinar via webcast on Thursday, October 12, 2023 at 4:00 PM ET** to review the data and to provide a regulatory update. The event will feature presentations by **Dr. Parikh** and by PMV management.

To register for the event please click [here](#).

About the PYNNAACLE Clinical Trial

The ongoing Phase 1/2 PYNNAACLE study is evaluating PC14586 in patients with advanced solid tumors harboring a p53 Y220C mutation. The primary objective of the Phase 1 portion of the trial is to determine the maximum tolerated dose (MTD), and recommended Phase 2 dose (RP2D) of PC14586 when administered orally to patients. Safety, tolerability, pharmacokinetics and effects on biomarkers will also be assessed. Phase 2 will be an expansion study with the primary objective of evaluating the efficacy of PC14586 at the RP2D in patients with TP53 Y220C advanced solid tumors. For more information about the Phase 1/2 PYNNAACLE clinical trial, refer to www.clinicaltrials.gov (NCT study identifier NCT04585750).

About PC14586

PC14586 is a first-in-class, small molecule, p53 reactivator designed to selectively bind to the pocket present in the p53 Y220C mutant protein, hence, restoring the wild-type, or normal, p53 protein structure and tumor-suppressing function. The U.S. Food and Drug Administration (FDA) granted Fast Track designation to PC14586 for the treatment of patients with locally advanced or metastatic solid tumors that have a p53 Y220C mutation.

About PMV Pharma

PMV Pharma is a precision oncology company pioneering the discovery and development of small molecule, tumor-agnostic therapies targeting p53. p53 mutations are found in approximately half of all cancers. The field of p53 biology was established by our co-founder Arnold Levine, Ph.D., when he discovered the p53 protein in 1979. Bringing together leaders in the field to utilize more than four decades of p53 biology, PMV Pharma combines unique biological understanding with pharmaceutical development focus. PMV Pharma is headquartered in Princeton, New Jersey. For more information, please visit www.pmvpharma.com.

Forward-Looking Statements

Statements contained in this press release regarding matters that are not historical facts are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Because such statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking statements. Such statements include, but are not limited to, statements regarding the Company’s future plans or expectations for PC14586, including the timing of disclosures regarding clinical data updates of its current clinical trial for PC14586 and initiation of the potentially pivotal Phase 2 portion of the study, ongoing safety and response rate of participants in our clinical trials, as well as the overall success of the current and future clinical trials for PC14586, and the adequacy of the data to support its regulatory approval, and any future commercialization plans for the product candidate; and the future plans or expectations for the Company’s discovery platform for its other early-stage and clinical candidates. Any forward-looking statements in this statement are based on management’s current expectations of future events and are subject to a number of risks and uncertainties that could cause actual results to differ materially and adversely from those set forth in or implied by such forward-looking statements. Risks that contribute to the uncertain nature of the forward-looking statements include: the success, cost, and timing of the Company’s product candidate development activities and planned clinical trials, the Company’s ability to execute on its strategy and operate as an early clinical stage company, the potential for clinical trials of PC14586 or any future clinical trials of other product candidates to differ from preclinical, preliminary or expected results, the Company’s ability to fund operations, and the impact that the current COVID-19 pandemic will have on the Company’s clinical trials, supply chain, and operations, as well as those risks and uncertainties set forth in the section entitled “Risk Factors” in the Company’s Annual Report on Form 10-K filed with the Securities and Exchange Commission (the “SEC”) on March 1, 2023 and its other filings filed with the SEC. All forward-looking statements contained in this press release speak only as of the date on which they were made. The Company undertakes no obligation to update such statements to reflect events that occur or circumstances that exist after the date on which they were made.
